POWERFUL BUT SIMPLE TECHNOLOGY ADDS UP TO BIG SAVINGS

Just several years ago, there were no checks being handled electronically. In 2004, more than 1 billion checks were scanned and safely processed electronically. By the year 2010, all checks will be scanned electronically.

Remote Deposit Express also provides many cost savings. Banking fees and float can add up fast with minimum balances. Plus daily trips to the bank can also eat into your time and profits. Now you can centralize your check processing in one place and with one bank—Liberty National Bank.

YOUR REMOTE DEPOSIT EXPRESS BENEFITS

With Remote Deposit Express, you can now scan and image your checks, eliminating a trip to the bank. Here are just some of the benefits:

- Receive funds faster
- Make deposits at your convenience
- Save time preparing deposits
- Save time and money on making trips to the bank
- Enjoy later, daily deposit deadlines
- Find out about returned items quicker
- Consolidate funds from remote locations into one bank
- Improves efficiency and profitability

HERE'S HOW IT WORKS

1. Log onto the Internet to our secure Remote Deposit Express site.
2. Feed your check into this scanner.

3. Enter the amount of the check.
4. Hit "submit."

Funds are deposited into your account and may be available sooner than the traditional deposit. So let Liberty National Bank come to your business with Remote Deposit Express.
